

Land Survey – Crew Chief

The Dubay Group, Inc. has an immediate opening for a survey crew chief to assist our advancing survey department and land development team. Come work with some of the region's up and comers as well as seasoned staff as we help to shape southern New Hampshire.

The Survey Department at The Dubay Group utilizes some of the best and newest technologies, including high precision GPS and Unmanned Aircraft Systems (UAS), such as the Trimble 12i GNSS receiver & DJI Drones.

The right candidate will enjoy being outdoors in all seasons utilizing the latest technology and concepts combined with historic tried and true practices to perform surveys and collect data to today's ever advancing standards, have a minimum of 4 years of experience in real world surveying, and enjoy working in a team environment. A degree in a survey related field is a plus but not required, an FAA Part 107 Certified Remote Pilot License is a plus. We are willing to train the right candidate and are always looking for good workers with varying degrees of experience.

At The Dubay Group, Inc. we offer competitive wages, health/dental benefits, 401k matching, paid holidays/vacation/PTO, and more.

Our projects and clientele range from house lot surveys for homeowners to million square foot warehouses for large scale commercial developers and just about everything in between.

*Email cover letter and resume to:
Joel Connolly, Vice President Survey Department
